

American Scaffold

Your Expert Solution for Challenging Workplace Access and Environmental Containment Needs

American Scaffold leads the industry in delivering top-tier scaffold and containment systems for the most challenging maritime, industrial, commercial, and residential projects. From the eastern seaboard to strategic Pacific ports, we provide comprehensive, end-to-end services tailored to the unique needs of our diverse clientele. Our nationwide team of experts excels in complex U.S. Navy vessels, land-based structures, and more. Safety is our top priority, with every project meticulously reviewed and every piece of equipment rigorously inspected to ensure the highest standards of quality and security.

Tailored Scaffolding Solutions for Your Unique Needs

Debris Chutes

We offer reliable and efficient debris chutes designed to streamline waste management on construction and demolition sites, enhancing safety, productivity, and cleanliness while ensuring compliance with safety regulations.

Frame Scaffolding with Wood and Metal Plank

We offer premium frame scaffolding systems with both wood and metal planks, designed for ease of assembly, durability, and safety, providing versatile and robust support for a wide range of construction and maintenance projects, ensuring your project progresses smoothly and efficiently.

Pedestrian Protection

We prioritize public safety by providing robust pedestrian protection solutions that safeguard walkways and ensure the security of pedestrians near active construction and renovation sites.

Rolling Towers – Frame and Systems

We provide versatile rolling tower solutions, offering both frame and system options to meet the diverse needs of construction, maintenance, and industrial projects. Our rolling towers are designed to deliver mobility, stability, and safety, ensuring efficient and effective work at elevated heights.

Shrink Wrap Environmental Containments

We specialize in providing top-tier shrink wrap environmental containments designed to offer maximum protection against environmental elements, preventing contamination and ensuring compliance with environmental regulations.

Systems™ Scaffolds and Stair Towers

We provide premium frame scaffolding systems with both wood and metal planks, designed for ease of assembly, durability, and safety, providing versatile and robust support for a wide range of construction and maintenance projects, ensuring your project progresses smoothly and efficiently.

The American Scaffold Advantage

Unified and High-Performing Team:

Our unbeatable team operates cohesively, combining expertise and dedication to consistently exceed client expectations.

Ability to Surge:

Our strong infrastructure, national presence, and financial backing enable us to quickly scale up to support large projects, efficiently handling significant demands.

Service Responsiveness and Reach:

We pride ourselves on our swift and reliable service, ensuring that we are always ready to meet the needs of our clients, no matter what the scale or complexity of the project.

Commitment to Excellence:

Our team is dedicated to delivering top-notch results, ensuring our customers receive unparalleled service and the highest quality outcomes. Dedicated to supporting the structural repair and preservation of U.S. Navy ships and other critical projects, making sure our clients shine.

Safety:

We deliver the safest and most secure scaffolding and environmental containment systems, meeting or exceeding OSHA and NAVSEA standards. Our certified team, trained in OSHA Outreach, SAIA Scaffold Hazard Awareness, Fall Protection, and First Aid/CPR/AED/BBP, reflects our unwavering commitment to safety.
